

Table of Contents

Preface to the 5th Edition	7
Supply List	8
Experimenting Without Film or Camera	9
Photograms	11
Chemigrams	14
Cliché-Verre	15
Solvent Transfers	16
Lazertran	18
Polymer Clay Transfers	20
Experimenting With Imagery	25
(Photo)Montage	27
Collage	31
Experimenting With The Camera	33
All About Pinhole Photography	35
The Holga	46
In-Camera Experimentation	48
After Dark Photography	49
Quickie Zone System	51
Composition “101”	53
Experimenting With Film	55
Paper Negatives	57
Reticulation	60
Stand Development	62
Increasing Film Grain	64
Pushing and Pulling Film Times	66
Why Pyro?	68
Burning, Scratching, Distressing Negatives	72
Cross-Processing and dr5	74
Sabattiered Film	76
Black and White Infrared	78
Color Infrared Film	81
Polaroid Image Transfers and Emulsion Lifts	83
Black and White Films	88
Need-to-Know Film Stuff	92
Experimenting With Printing	97
Making BW Photo Paper “POP”	99
Printing Experimentation alias Fun in the Darkroom	101
Split Filter Printing	104
Sabattiered Prints	106
Chromoskedasic Sabattier	110
Liquid Emulsion	114
Lith Printing	119
Various Paper Developers, Etc.	122
Variable Contrast Black and White Papers	124
Need-to-Know Printing Stuff	127

Experimenting with the Finished Print	133
Bleaching and Bleachout	135
Toning	137
Mortensen Metalchrome	142
Applied Color	143
Bleach-Etch/Mordantage	147
Dye Mordanting	151
William Mortensen's Abrasion Tone Process	155
Bromoil	156
Encaustic	159
Need-to-Know Print Finishing Stuff	161
Time/Temperature Chart	163
F-Stop Printing Chart	164
Print Magnification Exposure Table	165
Conversion Table, Quick and Easy	166
Units of Measurement	167
Chemical Weight Table (Grams to Teaspoons)	168
Miscellaneous Purchasing Information and Websites	169
Recommended Reading List	170
